

## ENVIRONMENTAL POLICY STATEMENT

Express Assemblies Ltd recognises the importance of environmental protection and acknowledges the impact our actions may potentially be having in a professional and organised manner.

We take responsibility to protect our environment very seriously and view the implementation of the Environmental Policy as an essential element of our business success. All personnel including directors and management understand and support this commitment to environmental excellence.

As a company, our mission is to minimise any potential risks to the environment by:-

- Complying with all applicable environmental laws and regulations.
- Incorporating the highest quality management practice to minimise potentially harmful environmental effects.
- Promoting recycling and proper WEEE disposal of our products.
- Ensuring resources are maintained and environmental commitments are met.
- Seeking to work in partnership with the community and behave in a socially responsible manner.
- Cooperating with suppliers who share and value their environmental responsibilities.
- Having an organised approach in place if any potential environmental incidents should occur.
- Recording regular reviews and audits which offer improvements to environmental performance.

We will strive to meet all statutory requirements set out by the Environmental Agency, and other organisations, and take pride in ensuring that all potential risks and hazards are quickly identified and effectively controlled. All staff are to be provided with the necessary resources, equipment and training provided to fulfil the requirements of this policy.

The implementation of this policy will be monitored and reviewed at regular intervals to ensure we are working to and achieving the highest levels of environmental control. With the approval and full support from customers, suppliers and directors alike, Express Assemblies are determined to eliminate or reduce any potential adverse environmental impacts resulting from our work process and accommodate an effective Environmental Management System to support this.

Signed

Jenny Crane
